OUR STORY

After doing extensive market research, we heard common complaints: Many want to lose weight and have tried so many supplements, however, they do not work or some might work but not yield the desired results. We also hear other stories that there is a weight loss result but the health is put at risk. Many experienced heart palpitation, anxiety and jittering feelings while taking the weight loss products. Some even feel tired all the time. Besides, the weight loss effect is uneven, especially for women, they lose fat at the part they don't want such as their bust and buttock areas. Worse, it affects their beauty and skin health. Many women notice the side effects in their skin after taking the weight loss pills such as dry, wrinkle, and saggy skin. Their faces even become dull and lifeless after losing weight.

Hearing these remarkable concerns inspire our health experts to do extensive research to bring out the best healthy version of weight loss products that meet the needs of weight loss, health and beauty. Our supplement helps you lose weight in a scientific way, targeting fat loss at the right area. With our exclusively selected ingredients, our supplement helps you maintain good health and beautiful skin. Our philosophy is to create the best version of yourself in both health and beauty. Beauty is from within. We believe that beauty comes from a healthy body in a good shape. It is a good start for you to become healthy and beautiful.

WHAT IT IS

Through scientific methods, HBU Global Premium Healthy Weight Loss brings back to you two desired results simultaneously: a slim and toned body shape while being healthy with full of energy.

Unlike most weight loss supplements when you might have ineffective weight loss, special combination of Bromelain and Spirulina of Premium Healthy Weight Loss targets excessive fat around the belly, waist, thigh, and upper arm. Not only that, other ingredients burn the unhealthy visceral fat between your organs, thus preventing chronic inflammation, cardiovascular stress, and a whole list of ailments. Ingredients like Inositol help balance leptin levels to stop the body from storing fat and increasing fat metabolism.

WHAT IT DOES

Made in USA in an FDA-approved facility, fully certified in USA with best quality and natural ingredients, HBU Weight Loss is the first and only step in your successful weight loss journey. It helps transform your health by:

- Burning fat while maintaining the figure
- Reducing visceral fat between organs
- Nourishing your body with nutrients
- Increasing skin quality and anti-aging
- Improving digestion and detoxification
- Increasing energy levels and boosts mood
- Regulating sugar levels and cholesterol

OUR TECHNOLOGY

Premium Healthy Weight Loss is created with modern high performing technology including all-natural precious ingredients by leading American experts.

A scientifically formulated weight loss supplement that helps you lose weight fast and in the right places.

Combined with bio-availability and high-absorbency technology to work effectively at deep cellular level.

OUR CERTIFICATE

**SCIENTIFICALLY
FORMULATED**

KEY INGREDIENTS

Garcinia Cambogia

It blocks citrate lyase, an enzyme used to produce fat. It may also help lower high levels of fat in your blood, ensuring that your health is always in perfect condition throughout your weight loss journey.

Inositol and B complex

Inositol helps balance leptin levels to stop the body from storing fat and increasing fat metabolism.

The vitamin B complex helps the burned fat get converted into a good form of energy to be used by the body cell.

KEY INGREDIENTS

Kelp

The natural fiber alginate found in Kelp can help prevent fat from getting absorbed in the body while also increasing the overall metabolism of your body.

Spirulina

Spirulina helps increase metabolism rapidly and improve the overall energy level in the body. By improving blood lipids, it helps regulate of good fat while eliminating bad fat from your body.

MCT

It helps induce thermogenesis, thereby increasing body temperature and increasing calorie burn. When combined with a low-carb diet, it also converts into ketones, increasing the breakdown of fatty cells.

Gymnema Sylvestre Leaf

Appetite Suppression: The gymnema plant contains a number of compounds, such as acidic glycosides and anthraquinones. Gymnemic acids are sweetness inhibitors.

Blocks Sugar Absorption: This prevents sugar from being absorbed into the body. This effect has a two fold benefit in that it helps balance blood sugar, and it promotes lean body mass by lessening the amount of sugar that gets stored as fat.

Bladderwrack

A type of seaweed, it is believed to increase metabolism while stimulating thyroid glands using high iodine content. This may help treat obesity while also improving skin hydration, reducing cellulite, and increasing energy...

OUR CUSTOMER STORIES

Lily Nguyen

"I have struggled with my weight loss for many years and almost always put back the weight I lost within weeks. My problem of overeating and low metabolism was finally fixed by HBU. In the past months of using, I have noticed far more progress than I ever did. This works for real!"

Becky. G

"I wanted to lose weight but not my breasts. Before HBU, I never thought it'd be possible to experience targeted fat loss. But after taking this for a while, the results speak for themselves"

OUR CUSTOMER STORIES

Patricia. B

"I've tried almost every supplement in the market and most of them leave me feeling lethargic and tired all day. With this, not only have I lost weight, but I have never felt sluggish or jittery through my weight loss journey".

Jung-Hoon

"I didn't believe the reviews at first, but after seeing the results on myself, I understand the reason behind so many positive reviews. After taking this supplement, I have seen a significant reduction in my beer belly and can finally get a glimpse of my abs back. I have never been this happy!"
